

All manufacturers of heating systems recommend yearly cleanings, inspections and tune-ups to keep them safe and operating at peak performance. At Advantage Oil, we offer our customers comprehensive, affordable service plans to help protect them from the expected, as well as the unexpected! Reduce breakdowns and costly service calls by making sure that your heating system is getting the care and attention that is needed.

If a breakdown does occur, or a repair is needed, get continued peace of mind knowing that with an Advantage Oil service plan, we've got you covered!

## Why Get a Service Plan?

- **Improved Efficiency** - Clean, tight and well lubricated parts help your system run smoothly, and consume less electricity. You save money every month on your utility and fuel oil bills, allowing an annual service and maintenance plan to pay for itself.
- **Extended Equipment Life** - When a technician inspects your equipment, they are able to catch problems early and prevent a system breakdown, helping your equipment last longer.
- **Better Home Comfort** - Neglected equipment may have trouble keeping up with demand, especially during cold East Coast winters. A trained technician knows how to help you get the most out of your heating equipment to improve home comfort.
- **Discounts** - Lower costs on parts and labor than if you were to purchase these services separately.
- **Priority Service** - If repairs or service is needed, you can be assured that you will receive priority consideration.

### SERVICE

At Advantage Oil, service is our number one priority. You can always count on reliable, courteous and competent customer service. Our 24/7 emergency service ensures a prompt response.

### SUPPORT

Our staff is experienced in the finer points of customer service and support. Advantage Oil's service technicians are all NORA certified, giving you the comfort of knowing that you will receive quality care and the job will be done right.

### STABILITY

With over 20 years of experience, fully certified service technicians and a courteous customer service staff, you can always count on being treated professionally. Advantage Oil technicians are always up to date with the latest energy efficient techniques. We are committed to excellence and are always available when you need us.
